SUMMARY

Information Science graduate with hands-on experience in Python, REST APIs, backend development, databases, Git, and software projects. Experienced in testing application functionality, debugging issues, validating API workflows, and documenting project results. Strong analytical and problem-solving skills with an interest in Quality Assurance, API testing, test automation, and software reliability.

TECHNICAL SKILLS

Testing and QA API Testing, Functional Testing, Test Case Design, Exploratory Testing, Regression Testing, Bug Identification, Debugging	API and Backend REST APIs, FastAPI, HTTP, JSON, Swagger/OpenAPI
Programming languages Python, SQL	Tools Git, GitHub, Postman
Data and Databases MySQL, PostgreSQL	AI / ML TensorFlow, OpenCV, RAG, LLMs, HuggingFace
CS Fundamentals Data Structures & Algorithms, OOP, Computer Networks, DBMS	

PROJECTS

- Contactless Fingerprint Quality Assessment & Scoring Pipeline**
- Developed and tested a Python and OpenCV-based image quality assessment pipeline evaluating blur, brightness, glare, ROI completeness, and ridge clarity. Created test cases for different image-quality conditions and performed batch testing on 20 images. Generated test results and analyzed defects, achieving 85% defect detection accuracy with an average processing time of 37.4 ms per image. Documented results and provided clear failure feedback
- RAG Document Q&A System**
- Built and tested a Python-based RAG application for document question answering using FastAPI, HuggingFace embeddings, ChromaDB, and Google Gemini. Tested document processing, API workflows, retrieval results, and failure scenarios while debugging issues and validating application responses.

INTERNSHIPS

- Android App Development (Gen AI)** 02/2026 – 05/2026 | Bangalore(Remote)
MindMatrix
- Developed an Android application using Kotlin and Jetpack Compose with Generative AI capabilities.
 - Integrated AI-driven functionality into an application focused on connecting users with hyperlocal services.
 - Worked with Firebase and application APIs while implementing practical user workflows.
 - Collaborated on application development, testing, debugging, and feature improvements.
- Data Analytics Trainee** 11/2025 – 02/2026 | Bangalore(Remote)
Sonata Software
- Analyzed datasets using SQL and developed Power BI/Tableau dashboards to support data-driven reporting.
 - Performed data cleaning, preprocessing, and exploratory analysis to identify patterns and improve data quality.

EDUCATION

Sai Vidya Institute of Technology, Bengaluru 2022 – 2026 | Bengaluru
B.E – Information Science & Engineering
CGPA: 9.2 / 10.0
